SATURDAY EVENING, OCTOBER 8.

WHIPPING OXEN.—It is cruel and generally a useless act of barbarism to whip oxen, yet many farmers are in the habit of continually keeping the animals to exertion by proper words, the first intimation the poor creatures have from their master that he desires them to start, is a cut of the whip or a prick from the goad. This is not only savage, but absolutely wicked, and wholly unnecessary. Another practice often seen is that of pounding and thrashing the oxen because they don't readily back a load, when they have not learned to back an empty cart down hill. There is no doubt that the selling of many a yoke of oxen is depreciated from \$75 to \$25 by being abused in this way. If animals are to work, they must first be taught to work, and when they understand what is wanted of them, they will cheerfully comply. But there is a better way to communicate your desires than through the whip. Kindness and skillful management are far better. Remember that "a merciful man is merciful to his beast."

CONFAB BETWEEN DONN PIATT AND A STEAMBOAT PILOT.—"That is Black Mountain?" "Yes, sir; highest mountain about Lake George." "Any story or legend connected with that mountain?" "Lots of 'em. Two lovers went up that mountain once and never came back again." "Indeed, why; what became of them?" "Went down on the other side."

LEGAL NOTICES.

IN THE CIRCUIT COURT FOR FAIRFAX COUNTY, June term, 1870. Witmer & Co. vs. John H. Hayes. In Chancery. The Court doth further adjudge, order and decree, that this cause be referred to one of the Commissioners of this Court, with instructions to convene the creditors of the said John H. Hayes, by publication for four consecutive weeks, in some newspaper published in the city of Alexandria, Va., such publication to be equivalent to personal service; that he report the liens existing on said land, how and to whom due; and also the annual and fee simple value of the same, with any matter he may deem proper, or that either party may require to be reported specially. Extract. Teste: F. D. RICHARDSON, Clerk.

Parties interested in the above decrees are hereby notified that I have fixed upon the 20th day of October, 1870, at my office, at Fairfax Court House, between the hours of nine o'clock a. m. and 4 o'clock p. m., as the time and place I will carry out the instructions therein mentioned, where they are requested to attend, with their vouchers and other evidence.

This article is especially prepared to meet the wants of farmers, who need a

possessing Ammonia enough to make the growing crop, and permanent fertilizing qualities in abundance to enrich the soil.
Bone has been so tampered with by unscrupulous manipulators that consumers have justly become suspicious of it.
To satisfy such, I append the result of an analysis of this article by the eminent and well-known Chemist, Dr. G. A. Liebig, together with his remarks in regard to it.

Moisture.....7.51
Organic Nitrogenous Matter.....17.32
Bone Phosphate of Lime.....66.20

He says: "This is a superior article of Flour of Bone, pure, unadulterated and free from all worthless impurities. One hundred pounds of it contains nearly as much of Phosphates as 150 lbs. of the common article of Raw Bone."
"Through the peculiar process to which it has been subjected, it has been rendered highly friable and soft, and will thus be readily assimilated in the soil."

"EXCELSIOR."

CONTAINING

Ammonia.....6 per cent
Super-Phosphate, equivalent to Bone
Phosphate of Lime.....67 per cent
Potash and Soda.....6 per cent

EXCELSIOR is composed of 700 pounds of No. 1 Peruvian Guano, and 3000 pounds of Soluble Phosphate of Lime (bones dissolved in sulphuric acid), potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanos, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

EXCELSIOR was introduced in 1858, and we challenge the manufacturers and vendors of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of the PROPRIETORS SUPERINTENDENTS IN PERSON EVERY MINUTE OF ITS MANUFACTURE, and therefore warrant every bag uniform, and to contain by analysis the standard of fertilizing properties, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

EXCELSIOR is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating farmers, after TWENTY YEARS' experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of **EXCELSIOR** is equal to 200 to 300 pounds of any other Fertilizer or Guano offered for sale, and therefore is fully 100 to 200 per cent cheaper.

The very best evidence we can offer of the value of **EXCELSIOR** as a crop grower and fertilizer, is the fact of its being imitated and counterfeited. Some unprincipled manufacturers have actually used the trade mark for the purpose of palming off their worthless counterfeits.

The ANALYSIS and name of "J. J. TURNER & CO." in Red Letters, are branded on every bag. All others are counterfeits.
Price \$56 per ton.

For Corn, Oats and Spring Crops generally it has no superior. Composed of the most concentrated materials, it is richer in Ammonia and Soluble Phosphates than any other fertilizer sold, except "EXCELSIOR" and is made and supervised—unlike the cheap and adulterated "FINE GUANO" sold by some dealers.

ZELL'S AMMONIATED

BONE SUPER-PHOSPHATE.

The best and most popular Fertilizer in use. Quick and active as Peruvian Guano, and permanently improves the soil.
It stands the drought better than any other Fertilizer, which is very important to the farmer.

It is manufactured of Bones, Animal Matter and a rich Phosphoric Guano, containing over sixty per cent of Bone Phosphate of Lime, treated with Sulphuric Acid, and 10 to 15 per cent. Bone Phosphate of Lime rendered soluble; at the same time rendered quick in its action by the addition of over 2 per cent of Ammonia.

This superior Phosphate has now been tested for over five years, on all kinds of crops, by the side of all known Fertilizers, proved equal to the best, and has even met the general satisfaction that could be desired.

For this valuable Fertilizer we only ask a trial side by side with any Fertilizer in the market to attest its superiority.
Every farmer should give it a trial, as the cost will be more than repaid the first year, and its beneficial effects lasting.

For Corn, Oats, Wheat, Rye or Grass, it has no superior.
Zell's Phosphate is fine and dry for drilling, and is put up in bags or barrels.
Price \$60 per ton of 2000 lbs.

Sent for a circular, and read the certificates of some of the best farmers in Virginia who attest its superiority over all other Fertilizers.

SOLUBLE PACIFIC GUANO.

Improved in QUALITY AND CONDITION.

The quality of this Guano is materially improved by the addition to its composition of a large amount of the
SALTS OF POTASH.
It is improved in condition by being brought into market sufficiently dry and uniformly fine to pass with facility and regularly through the orifices of the

WHEAT DRILL.
More than \$1,000,000 is involved in the production of this Guano, and the trade in it has steadily increased, until now it far exceeds that of any other fertilizer.

The Pacific Guano Company has a far greater interest in the maintenance of the quality of its Guano than any number of consumers can have; hence no apprehension need exist as to its continued excellence.
